

Welcome to Grenada

"I believe in being ahead of the game; why not join me!"

Peter de Savary, Founder and Chairman [read more >](#)

Over the years, I have been privileged to visit many spectacular places around the world and feel fortunate to have had the opportunity to create some of the most successful private clubs and resorts comprising more than 25 international projects including the St. James's Clubs globally, The Carnegie Club at Skibo Castle in the Highlands of Scotland, Cherokee Plantation in South Carolina, Carnegie Abbey in Rhode Island, Bovey Castle on Dartmoor National Park, England, as well as The Abaco Club on Winding Bay in the Bahamas.

Returning to Grenada early in 2006, some 55 years after my first visit, I was charmed and excited by this "gem" of an island which is perhaps the most scenic and friendly in the West Indies and will, in the future, become the number one "hideaway" in the Caribbean.

This magazine is a flavour of what will become some of the most exciting and unique lifestyle opportunities, on magnificent beach-front settings. There are two principal developments, "Port Louis" and "Mount Cinnamon". Additional Outposts will include "Tufton Hall", an ancient plantation high in the tropical rain-forest, to be restored providing an exceptional and unique "eco-spa", and "Mount Edgecombe Plantation", a restoration and revival of a traditional Grenadian working plantation. Guests of these properties will also have access to our own private air terminal at Grenada International Airport. The progressive Government of Grenada and the vibrant local community enthusiastically support these properties.

'Port Louis', the ultimate maritime resort, club and village community, will offer residential and commercial ownership and significant investment opportunities including home-sites, apartments, world class marina, shops, restaurants and hotels. All offer my signature-style of quality and ambience whilst exuding the captivating colour and warmth of the Island's rich history and culture.

Rising high above the capital, St. George's, on the outer edge of the horse-shoe bay, 'Port Louis' enjoys some of the most exotic vistas in the world, whilst a natural lagoon to the east forms the perfect haven for a new marina accommodating yachts of up to 100m. The views across the crystal clear azure waters of Port Louis 'Pandy Beach' towards Grand Anse are simply breathtaking and are now to become the back-drop to this exciting and vibrant development.

'Mount Cinnamon' on the magnificent, world famous Grand Anse Beach, opening April 2007, offers exceptional and enchanting, fully furnished turn-key homes for private ownership (whole or fractional) and rental pool inclusion. These wonderful properties, with a multitude of activities on site, as well as their own restaurants, bars and swimming pools, will be an outstanding investment for family holidays.

Read on and enjoy some of the very special places that re-kindled my love affair with this wonderful island. And I am not alone! Many prominent sporting, business, media and other fascinating like-minded individuals are choosing to be a part of this magical place.

Come and have a look - you will just love it! When investing, I believe in being ahead of the game and invite you to do likewise. Please do get in touch!
